Piccolo trio seriale

Op. 47

per
flauto, corno inglese e clarinetto

1956

Clarinetto (Sib)

Analys

Hela det tematiska materialet i denna lilla trio utgöres av fem 12-toniga melodier, bildad som 12-tonserier, två i vardera yttersatsen, en i den långsamma mellansatsen. – Omvändningar förekommer endast i sista satsen, vars båda serier jämte 1:sta satsens 1:sta serie dessutom uppträder i var sin (obetydligt avvikande) variant - i sin tur likaledes dock "12-tons". – Yttersatserna har (kortfaldad) sonatform; mellansatsen är ett slags ostinato (med ett icke-seriellt "mellanspel" över ett förut uppkommet bimotiv).

Till tjänst för de utförande samt ev. partiturläsare är serieinsatserna överallt angivna i noterna: S^1 och S^2 beteckna 1:sta satsens båda serier, S^3 2:dra satsens serie, S^4 och S^5 3:dje satsens serier (i originalform.) Varianterna av S^4 och S^5 betecknas med S^{4v} och S^{5v} , omvändningarna med S_4 och S_5 , resp. S_{4v} and S_{5v} .

Alla (serie-) teman skall spelas solo, espressivo (som i ett fugato)

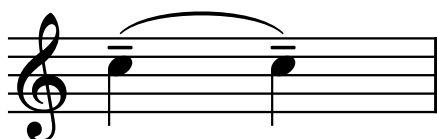

Analysis

The entire thematic material in this little trio consists of five 12-tone melodies, formed as 12-tone series, two in each outer movement, one in the slow middle movement. – Inversions occur only in the last movement, both series of which, along with the 1st movement's 1st series, also appear in their own (slightly different) variant - in turn also "12-tone". – The outer movements have (short-folded) sonata form; the middle movement is a kind of ostinato (with a non-serial "interlude" over a previously occurring secondary motif).

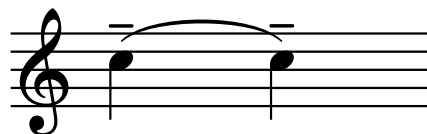

For the benefit of performers and possible score readers, the series insertions are indicated everywhere in the notes: S^1 and S^2 denote both series of the 1st movement, S^3 the series of the 2nd movement, S^4 and S^5 the series of the 3rd movement (in original form). The variants of S^4 and S^5 are denoted by S^{4v} and S^{5v} , the inversions with S_4 and S_5 , resp. S_{4v} and S_{5v} .

All (serial) themes should be played solo, espressivo (as in a fugato)
